

Tanish Choudhary

Dehradun, Uttarakhand, India | cybersectanishchoudhary@gmail.com | [linkedin.com/in/tanishchoudhary](https://www.linkedin.com/in/tanishchoudhary) | TryHackMe: Top 3%

Professional Summary

Final-year B.Tech Computer Science student (DIT University, 2026) with dual expertise in **offensive security / penetration testing** and **backend development**. Ranked in the **top 3% globally on TryHackMe** with Jr. Penetration Tester certifications. Experienced building production-ready RESTful APIs with **Node.js, Express.js, and MongoDB**. Holds an industry cybersecurity internship (APCSIP-2025) and national award-winning project experience. Seeking a full-time role in cybersecurity or software engineering where offensive-security intuition meets scalable system design.

Education

DIT University

Bachelor of Technology — Computer Science & Engineering

Dehradun, Uttarakhand

Aug 2022 – Nov 2026

Professional Experience

Cybersecurity Intern — APCSIP-2025

Uttar Pradesh Police, Amroha Cyber Crime Unit

June 2025

Amroha, Uttar Pradesh

- Assisted investigators in **cybercrime case analysis**, correlating digital artefacts across seized devices, logs, and cloud accounts.
- Conducted **OSINT investigations** and digital forensics examinations; produced structured evidence reports for law-enforcement proceedings.
- Supported **incident-response workflows** including log collection, timeline reconstruction, and extraction of indicators of compromise (IOCs).
- Contributed to **public cyber-awareness campaigns** on phishing, social engineering, and safe online practices.

Technical Skills

Security & Offensive: Penetration Testing, Web App Security (OWASP Top 10), OSINT, Malware Analysis, AV Evasion, Privilege Escalation

Backend Development: Node.js, Express.js, RESTful API Design, MongoDB (Advanced Aggregation), JWT Auth, API Testing with Postman

Languages & Scripting: Python, JavaScript (Node.js), C/C++, PowerShell, Bash

Security Tools: Metasploit, Burp Suite, Nmap, Wireshark, SQLMap, Gobuster, John the Ripper, Netcat

Platforms: Kali Linux, Windows / Active Directory, Docker, Git/GitHub, TryHackMe, Hack The Box

Frameworks & Concepts: MITRE ATT&CK, OWASP, TCP/IP, DNS, HTTP/S, Active Directory Attacks, Post-Exploitation

Key Projects

Secure RESTful API Backend | Node.js, Express.js, MongoDB, JWT, Postman

2024

- Built a scalable REST API with full CRUD operations, JWT-based authentication, and role-based access control for a multi-user application.
- Implemented **advanced MongoDB aggregation pipelines** for analytics endpoints, optimising index usage to cut query latency significantly.
- Validated all 3+ endpoints via **Postman test suites**.

Malware & Evasion Research Lab | C/C++, Python, Windows Internals, MITRE ATT&CK

2024

- Developed custom payloads applying **Sektor7 Malware Development Essentials** techniques: process injection, shellcode encoding, and AV/EDR evasion.

Covid-Testrone | IoT, Arduino, Python — 2nd Place, ATL Marathon by NITI Aayog

2021

- Designed and built an automated rapid-testing device integrating IoT sensors with a real-time web dashboard for result visualisation and reporting.
- Won **national 2nd place** at the ATL Marathon (NITI Aayog), competing against hundreds of teams across India.

Certifications & Training

Jr. Penetration Tester — TryHackMe | Pre-Security — TryHackMe | Cyber Security 101 — TryHackMe

Malware Development Essentials — Sektor7 Institute | SQL Injection Attacks — EC-Council

Introduction to Dark Web, Operations & Cybercrime — EC-Council

Achievements & Recognition

- **Top 3% globally** on TryHackMe — completed Jr. Penetration Tester and Red Teamer learning paths out of millions of users.
- **National 2nd Place** — ATL Marathon by NITI Aayog for the Covid-Testrone innovation project.
- Active **HTB CTF player** — regularly solves Web, Pwn, and Forensics challenges on Hack The Box.
- Competitively selected for **APCSIP-2025**, a state-level cybersecurity internship programme run by the Uttar Pradesh Police.
